Achieve brilliant print workflow
without the hassle

Handle all your business needs with hassle-free multi-function printer

Samsung's SCX-5637F multi-function printer is ready to transform the way you work. Within its chic and durable design is a host of features (fax, scan, photocopy, print) that deliver hassle-free performance and – most importantly – high productivity. The anti-jam technology, 2GB flash memory (with Document Box), a Gigabit Network and 600MHz Dual-core CPU integrate seamlessly to deliver a document workflow that is swift, cost-effective and trouble-free. The new Document Box is a standout feature and shows Samsung's commitment to unearthing innovative new workflows. It allows greater flexibility in transporting documents and images between office resources (fax, scan, servers, etc) and will certainly save you time. And when you add in the new easy-to-use OP panel, which features a new one-touch convenience (eco button), you can expect this multi-function printer to deliver fast and hassle-free results.

Free your day with a reliable printing

Set your workday free from time-consuming and stress-causing printer blocks with Samsung's anti-jam technology. Utilising a semi-retard roller, which provides a unique backward friction during the paper pickup process, your operation will see increases in productivity and even bigger reductions in work frustration. Common problems that often add to stress-levels, such as miss-feeding and multiple paper feeding from the cassette tray, will become things of the past. An impressive high monthly duty is one of the clear-cut and measurable benefits found with anti-jam technology, and will add to a more streamlined and reliable workflow. So, with Samsung anti-jam technology your printing operation can finally be hassle-free, efficient and reliable.

Streamline work with easy-to-use printers

Achieve brilliant printing results effortlessly with a single touch. The simple OP panel, which features a new compass dial and 4-line Graphic LCD display, provides a simple and easy way to take full control of your printing operation. Featuring a new one-touch convenience eco button, which is easily found on the front panel and acts as a default setting once turned on, you can now combine two pages into one document. This helps you cut-back on costs by reducing paper and toner use, and lessens your impact on the environment. The OP panel also simplifies your workflow, and with fewer buttons and unnecessary options to worry about, you can really produce amazing, hassle-free results.

Being energy efficient just got easier

Make hitting your environmental goals a whole lot easier with Samsung's new Eco Mode, which also includes a Results Simulator. The Eco Mode features a one touch Eco Button, which conveniently serves as your default setting once activated, and reduces paper consumption with Duplex printing, 2-up printing and a Toner Save setting. The simulation shows levels of carbon dioxide emissions, electricity and paper usage. The Eco Mode is an easy and effective way of keeping track of your printer consumption.

Boost productivity with longer lasting toner

Tailor your business operation to match your needs, and enjoy high-quality, economical printing. With Extra high yield toner cartridges, which can print up to 10,000 pages, handling large company documents and publications is not a problem. The level of yield is entirely up to, with three choices available: Standard yield toner cartridges (average 2,000 standard pages), High yield toner cartridges (average 5,000 standard pages), and Extra high yield toner cartridges (average 10,000 standard pages). Ultimately, cutting overheads is easily achieved by the reduction in cost-per-page printing and through fewer toner cartridge replacements. Add to this the economical polymerised toner, which is also environmentally friendly, and this printer is ready to deliver amazing value.

Get more from every page with Duplex printing

Double your print output. Or, halve your paper costs. Either way you look at it there is no denying that Duplex printing is an essential feature for both business and personal printing. It provides loads of cool and creative ways to fulfill print jobs, from single-sided formats to double-sided booklet formats, and really delivers a professional look and feel every time. The double-sided printing capabilities will also massively reduce costs and ensure that your paper supplies last longer. This then helps reduce waste, and minimises your impact on the environment. So, it is definitely a win-win situation with Duplex printing.

Get the work support you need with a multi-function printer

This ultra-versatile multi-function printer with fax, scan, photocopy and print capabilities, will not only streamline your workflow but also add new levels of productivity. The 600MHz Dual-core parallel printing technology - 1.5 times faster than single core - and expandable memory integrate perfectly and really boost performance. You'll never have problems with large printing jobs, which are handled with speed, precision and ease. And with various media support available, you'll notice the amazing paper handling that is reliable and efficient. With so many must-have features in one printer, finding a reason not to invest in such a multifunctional piece of office equipment might be harder than you think.

Enjoy the ultimate short cut with Samsung's Document Box

Take control of your document flow with 2GB built-in flash memory, which now includes the handy Document Box. You can now effortlessly store, share and print documents and images from sources such as work servers, emails, faxes, or even straight from the scanner. Thanks to the Document Box, new applications such as Easy to Share documents and Easy to Store Image or Printouts give your work day a greater flexibility and productivity. And to make things even easier, the user interface (UI) also supports web access with Remote UI support via the web. Being productive at work has never been so easy!

Meet work demands easily with heavier media handling

From everyday documents to important presentations, you always need to give your printing the handling it deserves. If you want to impress with not only high-quality results but also with the professional manner in which you complete the task, then your printer will need heavy media handling. When you combine the Main Tray (supports 163gsm), the Optional Tray (supports 163gsm*), and then the Mp Tray (supports 220gsm), your printing operation will easily handle even the heaviest of jobs. From specialty paper and thick stock to envelopes and cards…your printing will be trouble-free, cost-effective and a pure breeze.

*Grams per square metre.

Cut out print queues and increase productivity

Boost your print setup with a powerful 1 Gigabit network LAN connection. The enhanced connectivity will ensure that even the larger printing jobs from multiple users can be completed with amazing speed and without any compromise in quality. When combined with the 600MHz Dual-core processor, the result is simply brilliant. During the busiest of times when important work documents, like big presentations, need to be looking perfect and ready on cue, the 1 Gigabit network will keep everyone happy. So, now a truly professional operation is easily achieved and just waiting to show off its full capabilities.

Take control of office documents with Secure Printing

Important documents can easily end up in the wrong hands, especially when work printers are shared among many users. With Secure Printing you can now keep your documents safe from prying eyes using a pin code, which prevents your documents from being printed until it has been entered. Once you have sent the job to the printer, you simply go to the printer, scroll down the user interface to find your particular file, and then authorise the print by entering in the pin code. This is a simple and effective way of keeping tight control over the circulation of important documents, while also minimising unnecessary printing.

Barcode printing

Keep track of operations with Samsung Barcode Solutions. From stock levels and product movements to membership cards and filing systems, you will increase productivity and reduce costly errors.

SmarThru™ Office

Stay organised with the SmarThru™ Office. This time-saving solution efficiently captures documents and stores them in folders. It also indexes and bounds them so they can be sent to other destinations or to applications for editing.

CounThru™ 2 Pro/Enterprise

Get printer status updates without leaving your seat. Receive low toner level warnings, system error notifications and even usage and customer billing summaries with Samsung's proprietary CounThru™ 2 Pro/Enterprise interface.

SyncThru™ Admin 5

Who says you can't do it all? SyncThru™ Admin 5 lets you easily install, manage and monitor all your networked digital print devices on an accessible interface. You also have the ability to analyse data in greater detail with easy-to-read reports

SyncThru™ Web Service

Tired of having to install software just to manage your printer? Now you can change printer settings, upgrade firmware and check your printer's status easily with just a web browser and the innovative SyncThru™ Web Service.

Easy Print Manager

Run a smooth print operation with Samsung's Easy Print Manager. Every detail, from toner levels and job accounting to device settings and online ordering, is channeled into one easy-to-use programme.

Universal Print Driver

Save time and money with Samsung's Universal Print Driver. One print driver, which handles all of your Samsung printers, eliminates unnecessary installations and integrates your print operation.

Overview	Function	Print, Scan, Copy, Fax
	Value Added Function	Eco Button
Print	Speed (Mono)	Up to 35ppm in A4
	First Print Out Time (Mono)	As Fast as 6.5 Seconds
	Resolution	Up to 1,200 x 1,200dpi effective output
	Emulation	PCL5e/6, PS3, XPS, Epson/IBM Pro, PDF, TIFF
	Duplex	Built-in

Copy	Speed	Up to 35ppm in A4
		Up to 1,200 x 1,200dpi effective output
	First Copy Out Time (Mono)	10Sec
	Zoom Rate	25~400% (platen), 25~100%(ADF)
	Multy Copy	1~99 pages
	Duplex Copy	Standard (1:1, 1:2, 2:1, 2:2)
	Copy Features	ID Copy, 2-up, 4-up, Poster Copy, Clone Copy, Collation Copy, Auto-fit
Scan	Scan Speed(B/W)	24ipm
	Scan Size Document	Platen: Width (~216mm, 8.5") Length (~297mm, 11.69") ADF: Width (142~216mm, 5.6"~8.5") Length (148~356mm, 5.8"~14")
